Electric Guitars

Athena Series

The Athena 501 Semi-Hollowbody Electric Guitar offers versatility between rock, blues, jazz and more; the opportunities are endless! The 501 is a bigger body electric guitar built with the power of beauty and performance in mind. The dual humbucker pick ups, 3-way toggle, 2 volumes and 2 tones allow you full control over your sound. With this in mind, the Athena 501 is a force to be reckoned with! Of course, detail does not stop there because looks could kill with this Luna electric. From the flamed Maple Top and body to the Gold Satin Hardware, you've certainly got some powerful eye candy with this Semi-Hollowbody.

Fauna Hummingbird A/E - Gloss

Natural

There are no items in your cart.

Fauna Hummingbird A/E - Gloss Natural

The Hummingbird is a symbol of love, joy, and beauty. When the hummingbird hovers over flowers while drinking nectar, we learn that we should savor each moment, and appreciate the things we love. It reminds us that if we find joy in what we do, we become light as a feather, and life is rich with nectar. The hummingbird is also a symbol of great strength as they are able to hover for as much as 50 minutes in one place. Because of this, it symbolizes the ability to accomplish the seemingly impossible. Luna Guitars' iridescent Hummingbird hovers at the sound hole drawing nectar from a pink abalone flower. Its petite parlor size body includes a Fishman preamp system and, like its namesake, is powerful beyond expectation. Plugged in, the state-of-the-art Fishman preamp tuner maintains the intimate and natural acoustic tonal quality of this fine instrument. The Fishman Presys II provides a 2-band EQ with volume control, built-in tuner, and phase switch to fight feedback. Case sold separately.

Item ID	FAU HUM	Nut	Graph Tech NuBone

My hummingbird parlor

Got my little Luna in 2014 , what a great guitar, very versatile fantastic sound , plug or unplugged. Get a lot of compliments on its playability and it's beautiful looks. Have been very happy with this Luna purchase. A thumbs ups, all the way. I know this guitar will be with me for a long while.

Love My Hummingbird

It is a little flashy to my tastes; but, it is very pretty.
I've been playing mine since 2012. It has the older piezo.
To my ears and fingers this guitar is a monster in tone and accuracy.
I string her with J. Pierce 13-58 20/80 bronze.
I play her every day (6-8 hours).
Change her strings at a minimum -weekly.

I absolu...[Read More](#)

MODERN 24 SELECT FLAME FLOYD TIGER EYE

📖 View All From Series

DEAN GUITARS

MODERN 24 SELECT FLAME FLOYD TIGER EYE

The new Select Series by Dean is here! Designed by professional musicians for professional musicians without breaking the bank. The MD Select Series models feature Satin Necks for ease of playing and endurance. Mahogany Bodies with 3pc maple necks. 24 jumbo fret Ebony Fingerboards. Easy access heel joints, Stunning Tiger eye Flame maple tops, and exclusive Direct Mount Seymour Duncan TB5 and APH-1 pickups in a zebra parchment finish and sand blasted pole pieces to set the look apart from the rest. Floyd Rose 1000 series bridge system for tuning stability and dependability. 250K Audio taper pots for that smooth roll without destroying the tone. To top it off, Neck and Headstock binding to add that extra splash of class.
